STANDARD COOKING ELEMENT

OFFICINE GULLO
FIRENZE

GLASS-CERAMIC COOKTOP 40 CM

DESCRIPTION

Officine Gullo glass-ceramic cooktops use special electric heating coils placed under the surface to generate heat, which is transferred directly from container to contents. A solution that combines functionality and design. The non-heated surface areas remain cool preventing, thus, accidents and injury.

FEATURES

Construction

Fabricated using CrNi 18/10 AISI 304 grade Stainless Steel Scotch-Brite, incorporating 2mm thick worktop, rounded edges, rear splash back.

Cleaning

All serviceable parts are accessible by the easy removal of front control panel.

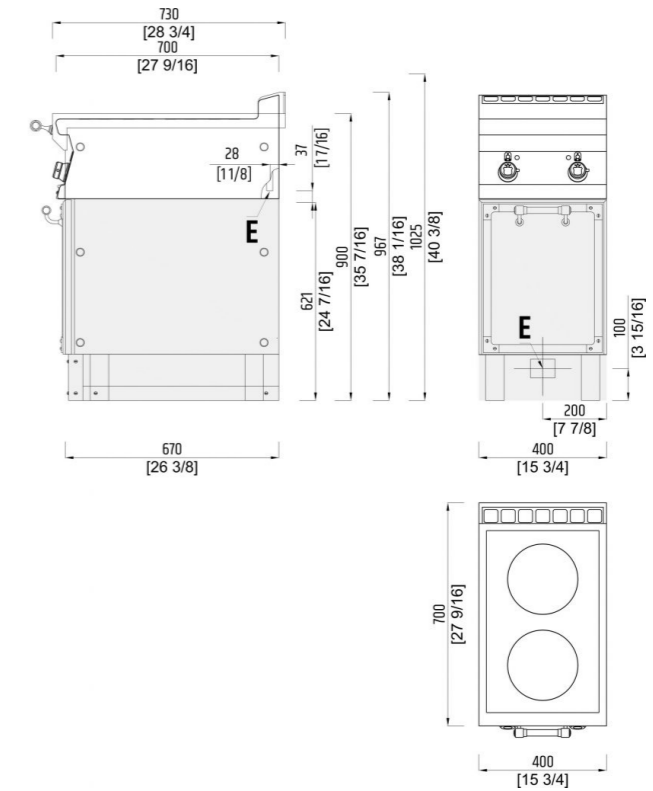

PLANNING NOTES

(i) If the range is installed between wood cabinet, those must be on legs so that the proper ventilation and air flow is available to the range. (ii) Locate the electrical supply flush with the wall or floor and within the area shown in the illustration above.

INSTALLATION SCHEME

NOTE: Shaded area above countertop indicates minimum clearance to combustible surfaces, combustible materials cannot be located within this area.

DETAILS

TECHNICAL INFO

WIDTH	15 3/4" in
DEPTH	28 3/4" in
MAXIMUM AMP USAGE	21.7 A
VOLTAGE (V)	[208/240 V]
FREQUENCY (HZ)	Hz: 50/60
PLUG TYPE	Hard wired no cable supplied. Dedicated circuit required.
